In his report on the trade of Hollow for last year the late Acting Consul, Mr. M F. A. Fraser, makes some remarks on the uncertainty of taxation and the multiplicity of collectorates in China. On the 1st October last there was paid a claim said that the increase of traffic is quite equal to put forward by the firm of HERTON and Co. expectations. In point of fact, if it continues as long ago as 1888 for compensation for losses caused by the unlawful seizure by superintendent; is already arging the necessity the Lekin Office of pigs which the firm for more waggons, and when the Rio Grande were shipping for exportation under a duty free permit. Mr. Theo. Sohst, the Chairman, said-The report and accounts for the year ended 31st Decomber, 1892, have now been in your hands for some time, and, if you have no objection, we will, as oustomary, take them as read. I will briefly call attention to the changes which our operations during 1892 have wrought in the posttion of the Company. The assets have been increased by \$85,000 and now amount to \$1,127,000, of which £52,000 are in sterling, while the liabilities are not materially greater that at this time last year. The list of investments will, I think. be considered satisfactory to you. The amount loaned on mortgage of real estate in Singapore is reduced by \$47,000 and every opportunity is being taken to realise mortgage and real estate investments which do not give ample margin of security for the amonat loaned On properties so realised during 1892, a net loss of \$900 was lucurred and bas been written, off exchange and sterling investments have been increased by £15,000. They are mostly first class Governaffected us to any serious extent; but we have on current account and fixed deposits with four of the suspended Banks, £5,500 Of this sum, £3 200 are with the Commercial Bank and the Australian Joint Stock Bank, and both of these Banks, we are informed by cable, have reoperand and resumed payment. The scheme for reconstructing the National Bunk is very likely to be successful, and the Board therefore see no reason to anticipate any ultimate loss to the Company from this source. The premium inome has increased by \$21,000, a portion of which is due to our taking over from the Strai s Fire Insurance Company, Limited, the contract the year 1892 for putty general and purlicular disposed of by a splendid catch at third man. underwriting account for 1891 did not run off the slips, the score being 215. so profitably as we expected, but in this re- Jarvis's wicketkeeping and the fielding of the Surrey, 180 and 118; Australians, 156 and 80. spect our experience was similar to that of all Australians were splendid. other Companies; we have been able, however. to double our reserves, to recommend a dividend | Shacklook 28, Storer 20: of 5 per ceut., and to leave the balance The settlements to 31st December last on 1892 Trott being out in the same over at 4.
